The Honorable Hugh S. Cumming, Jr.
The Director of Intelligence and Research
The Department of State
Washington 25, D. C.

Dear Hugh:

Attached is a biographical sketch of [redacted] who has been with the Agency since 1950. He is anxious at this time to transfer to some phase of research and analysis, and unfortunately we are not in a position to offer him a place on the DD/I side of the house. While his work on the operational side has been good, he is obviously more qualified for an analytical assignment. You may recall [redacted] who was in the Foreign Service.

I would appreciate it very much if you could find a spot for him somewhere in your research element.
